

## DoT Accepted Tactile Ground Surface Indicators (TGSIs)

Road Design Note  
**RDN 06-05**  
October 2021

### Abstract

This list provides details of Department of Transport (DoT) accepted Tactile Ground Surface Indicators (TGSIs). Only DoT accepted TGSIs can be used on declared roads.

### Key Information

Consultation should occur with local Councils as they may have different requirements to that of DoT.

The contact details are correct at the time of publication and may be subject to change.

Where information contained in this RDN cannot be followed, the designer, engineer or team should seek technical advice (from the Department of Transport or delegated Technical Advisor) and gain acceptance (where necessary) for a departure from the content in this RDN. This RDN has been developed by the Department of Transport's Road and Traffic Engineering and Authorised by the Director Road and Traffic Engineering.

Supplier	Product name(s)	Contact details
ALLTAC	<ul style="list-style-type: none"> <li>Alltac Sirius Plates</li> </ul>	1300 255 822 <a href="mailto:info@alltac.com.au">info@alltac.com.au</a> <a href="http://www.alltac.com.au">www.alltac.com.au</a>
