

## VicRoads International Projects

# VICROADS INTERNATIONAL SERVICES

**Vicroads international is the international business frontline for vicroads and the driving force behind exporting victoria's best practice road solutions to the world.**

Since 1987, VicRoads International (VRI) has delivered projects in more than 25 countries across a number of project disciplines.

### **Institutional Strengthening**

VRI has undertaken a wide range of institutional strengthening projects involving the development of organisational strategy and design, policy development, commercialisation, quality management, implementation of business information systems, human resource management and capacity building. Projects have been implemented in: *Bhutan, Cambodia, China, Delhi, Fiji, India including (Andhra Pradesh, Maharashtra, Mizoram, and Orissa), Indonesia, Kyrgystan, Nepal, Papua New Guinea, the Philippines, Samoa, Thailand and Vietnam.*

### **Road Safety**

VicRoads road safety expertise has been exported to deliver the full range of road safety components including the development of road safety strategies and action plans, road safety audits, blackspot analysis, road safety education and community consultation, vehicle safety and road user behaviour. Projects have been undertaken in: *India, Bangladesh, Botswana, Canada, China, Eritrea, Hong Kong, Indonesia, Laos, the Philippines, Samoa, Singapore, South Africa and Thailand.*

### **Asset Management**

VRI has delivered asset management projects involving the development and implementation of road and bridge maintenance strategies and programs (using technology such as HDM-4) as well as projects involving the development and deployment of road asset and pavement management systems. Projects have been undertaken in: *Bhutan, China, Fiji, Hong Kong, India, Indonesia, Malaysia, New Zealand, the Philippines and Thailand.*

### **Technical Services**

VRI offers technical consultancy services in many disciplines - road and bridge design, noise amelioration treatments, street lighting, landscaping, incident management, signing and line-marking, design standards and manuals as well as geotechnical and pavement technology services. Projects have been delivered in: *China, Hong Kong, Indonesia, New Zealand, the Philippines, Thailand, USA and Vietnam.*

### **Traffic Management**

Various traffic management projects have been delivered involving the specification, development and optimisation of traffic signal systems (SCATS), traffic information and other intelligent transport systems and the development of standards and manuals. Projects have been undertaken in: *China, Hong Kong, Ireland, Malaysia, the Philippines, Singapore and the West Indies.*

### **Vehicle Registration and Driver Licensing**

VicRoads manages the licensing of drivers and the registration of motor vehicles in Victoria and has developed state of the art policies, procedures and systems in these services. VRI has implemented vehicle registration and driver licensing projects in: *United Arab Emirates, Bhutan, Bangladesh, Eritrea, Fiji, Nepal and Samoa.*
