

<b>Permit No.</b>	Date of issue
	Expiration date (+5 years)

### Stock Crossing Permit

VicRoads issues a permit under regulation 24A [note that the regulation number may be subject to change] of the Road Safety (Traffic Management) Regulations 2009 for the applicant identified below to move an animal across an arterial road in accordance with the Manual for Traffic Control at Stock Crossings.

This permit is issued subject to the General Conditions and any Special Conditions specified in the permit.

### Consent to works

VicRoads, as the coordinating road authority and under section 63 of the Road Management Act 2004, consents to the applicant identified below placing (including supplying, installing and maintaining) and carrying out the works necessary to place the stock crossing signs identified below at the location(s) specified below.

### Applicant

#### Location of Stock Crossing

Name of applicant				
Postal address				
				Postcode
Email				

#### Provide a sketch of the stock crossing location (show direction of North) and details of all existing road signage, and a description of the proposed works

Scan and include the diagram/sketch provided by applicant on the application form

Provide Road Reservation Details e.g. vegetation, surface material, surface condition, drainage

## Applicant Agreement

Applicant to complete, sign and forward this application to the relevant VicRoads Regional Office listed below.

I agree to the conditions listed above and all other conditions outlined in the Manual for Traffic Control at Stock Crossings.

I understand that this permit is valid for 5 years from the date above and that, at the expiration of that time, the sign(s) and/or location may be reassessed to determine its suitability and the ongoing eligibility/compliance of this business. I also understand that at any time the coordinating road authority reserves the right to replace or remove the sign(s) when any of the following occurs:

- the applicant no longer conforms with the conditions of the sign approval;
- the sign is in a poor state of repair;
- the business no longer requires a Stock Crossing;
- the business ceases to operate;
- the road authority needs to resume the land.

**Please note this permit is not valid until this Applicant Agreement is signed and returned to the contact below:**

**Or**

As outlined in **Figure 8: layout for night operation - road reserve > 30 m** in the *Manual for Traffic Control at Stock Crossings*.

**Note:**

The floodlight(s) must be approved by the relevant road authority.

## General Conditions

1. All stock crossing signs must comply with VicRoads' own standard contract specification sections 714 and 860 for construction and installation and must satisfy VicRoads' technical requirements in relation to legend style and size and other sign face elements.
  2. Signs and lights must be installed at the approved location(s) in accordance with the Manual for Traffic Control at Stock Crossings, the Code of Practice for Worksite Safety - Traffic Management and normal safe working practices having regard at all times to the safety of road users and the protection of property.
  3. The applicant must bear all costs relating to the design, manufacture, installation and maintenance of the signs.
  4. The applicant must maintain the sign(s) in a safe and clean condition to the satisfaction of the coordinating road authority.
  5. The coordinating road authority reserves the right to cancel this permit, and, without compensation, remove the sign(s) authorised under this permit if:
    - any sign is not installed or maintained to the coordinating road authority's satisfaction; or
    - any sign is considered by the coordinating road authority to be a safety hazard; or
    - any condition of this permit is breached; or
    - the business for which this stock crossing permit was granted changes in operation significantly from the time of approval of this permit.
  6. The applicant must not alter the approved sign face design, without the written approval of the authorised officer of the coordinating road authority.
  7. The applicant must immediately notify VicRoads if he/she proposes to remove the signs and/or lights, at the permit holder's expense, if the stock crossing ceases to be required.
  8. All necessary repairs and restoration to the road, including the road reserve and ancillary works resulting from work or use shall be carried out to the satisfaction of, and at no cost to the coordinating road authority.
  9. Any existing operational drains within the road reserve affected by works or use shall be restored to the satisfaction of the coordinating road authority.
  10. All clearing of native vegetation, including trees and understory growth, shall comply with VicRoads, Council and Department of Environment, Land, Water and Planning (DELWP) requirements including the State Section of all Municipal Planning Schemes.
  11. The road pavement shall be kept free of animal excrement, excess dirt and mud and in a clean and safe trafficable condition.
  12. In the event that work is required to provide a service, e.g. electricity supply, across a road, a separate permit must be obtained for that work.
  13. Failure to install any sign and/or lights to the coordinating road authority's satisfaction within 90 days of the date of the permit will result in the cancellation of the permit.
